## Feedback to Australia on the level of implementation of IOTC Conservation and Management Measures identified by the CoC13 in 2016.

**Feedback:** With regards to the level of compliance by Australia to the decisions of the Commission, the Compliance Committee noted certain issues that required attention. These concerns were communicated to Australia by the Chair of the Commission in a letter dated 27<sup>th</sup> May, 2016.

- Some mandatory information not being reported to IOTC standard, for the Record of Authorised Vessels and Active Vessels List: provides GRT instead of GT.
- Has not reported size frequency to IOTC Standard for the longline fisheries (less than 1 fish per metric ton of catch per species), as required by Resolution 15/02.
- Has not reported Size frequency on sharks, as required by Resolution 05/05.

**Response:** The response to the letter of the Chair of the Commission was provided by Australia on 12 December 2016.

## <u>Current issues on the level of implementation by Australia of IOTC Conservation and</u> Management Measures identified for discussion in the CoC14 in 2017.

Having reviewed the 2017 Compliance Report for Australia, the Chair of the Compliance Committee has identified the following significant non-compliance issues for discussion.

| Compliance issues                                                                                                                                                      | Current<br>status<br>(2017) | Previous<br>Status<br>(2016) |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------|------------------------------|
| Repeated compliance issues                                                                                                                                             |                             |                              |
| • Has not reported size frequency to IOTC Standard for the longline fisheries (less than 1 fish per metric ton of catch per species), as required by Resolution 15/02. | P/C                         | P/C                          |
| • Has not reported Size frequency on sharks, as required by Resolution 05/05.                                                                                          | P/C                         | P/C                          |
