

RESOLUTION 13/06

ON A SCIENTIFIC AND MANAGEMENT FRAMEWORK ON THE CONSERVATION OF SHARK SPECIES CAUGHT IN ASSOCIATION WITH IOTC MANAGED FISHERIES

APPLICABLE TO

REPORTING REQUIREMENTS

This Resolution is for the protection of whitetip shark (*Carcharinus longimanus*) taken as bycatch in the tuna fisheries. In essence this Resolution prohibits retention on board, transshipment, landing or storage of any whitetip shark or part thereof, except for scientific purposes and artisanal fishers (paragraph 3). Further, CPCs shall require their vessels to release unharmed any whitetip sharks brought alongside or from the line (paragraph 4).

There is data reporting requirement for CPCs whose vessels or fishermen catch oceanic whitetip shark. The requirement covers catch statistics, and the deadline for the reporting requirement is the deadline applicable to Resolution 15/02 on Mandatory Statistical Requirements for IOTC CPCs.

Detailed template reporting forms also covering shark catches have been developed by the Secretariat and the Scientific Committee in Excel format. These forms cover data reporting requirements under resolution 15/02 on Mandatory Statistical Requirements, and accommodate the reporting needs under this resolution.
